

MUHAMMAD AMIR FAUZAN BIN MOHD FAHMY

Bandar Baru Kuala Selangor, Selangor, Malaysia | 013-573 7067 | amirfauzanfahmy@gmail.com

SUMMARY

Motivated Networking and Cybersecurity student with a strong academic record, practical networking lab experience, and hands-on exposure to Wireshark, Cisco Packet Tracer, GNS3, Laravel, Python and security tools. Passionate about secure systems, network infrastructure and practical problem solving, with proven discipline through university projects, technical workshops, part-time work and competitive athletics.

EDUCATION

International Islamic University Malaysia (IIUM) | Bachelor of Computer Science (Hons.) - Specialization in Networking & Security — CGPA : 3.51

Centre for Foundation Studies, IIUM | Foundation Studies

SBPI Sabak Bernam | Secondary Education

SK Kuala Selangor | Elementary Education

TECHNICAL SKILLS & CERTIFICATIONS

Networking: VLAN, Routing, DHCP, DNS, NAT, QoS, HSRP, STP, EtherChannel, Network Security

Programming / Web: Python, HTML, SQL, JavaScript, PHP, Laravel, MySQL, Database Design, Solidity

Tools: Cisco Packet Tracer, GNS3, Wireshark, Hydra, NetAcad, Hardhat, Autopsy, FTK Imager, VS Code, Microsoft Office, Canva

Certifications: Cisco CCNA: Introduction to Networks (Jan 2025), Switching, Routing and Wireless Essentials (Feb 2026) | CompTIA CySA+ Cybersecurity Analyst (May 2026)

WORK EXPERIENCE

2020nco | Barber — 2021 - Present

• Provide grooming services, manage client appointments and maintain consistent service quality in a customer-facing environment.

• Built strong communication, discipline, time management and attention to detail while balancing work with university commitments.

Computer & Electronic Devices Repair Shop | Technician Assistant — 3 Months

• Assisted with basic troubleshooting, device inspection, component handling and repair support for computers and electronic devices.

• Developed practical problem-solving skills by identifying hardware issues and supporting customers with device-related concerns.

PROJECT EXPERIENCE

DH Motorsport Car Service Booking Management System | Laravel, PHP, MySQL, Blade, Bootstrap, DomPDF

• Developed a web-based booking system with customer/admin dashboards, vehicle management, service packages, booking approval workflow, subscription plans, nearby workshop finds, search/filter, and PDF export.

• GitHub: https://github.com/amirfauzanfahmy/DH-Motosrport

Asrah FC Friendly Match & Team Management Website | Web Development / Database-Driven System Concept

• Designed a football club platform concept for friendly match booking, team/player management, match updates, admin approval, and dashboard reporting.

• GitHub: https://github.com/amirfauzanfahmy/AsrahFC

Blockchain-Enabled Traceability System for Halal Meat Supply Chain Integrity | Blockchain, RFID/IoT, QR Verification, RBAC (Chosen for participation in URIIS 2026)

• Proposed a web-based halal meat traceability prototype to secure batch records, shipment updates, RFID/IoT timestamp logs, retailer confirmation and QR-based consumer verification.

Enterprise Network Infrastructure Design | GNS3 Simulation, VLAN, HSRP, QoS, Security Controls

• Designed and simulated a scalable enterprise network with VLAN segmentation, redundancy, QoS and security controls to ensure reliable and secure connectivity.

Future Mind: AI Edition Explorace at Sekolah Dato' Abdul Razak (SDAR) | Program Facilitator

• Facilitated introductory AI learning activities and supported students in understanding practical AI concepts and technology awareness.

ACHIEVEMENTS & ACTIVITIES

• Dean's List in 4 consecutive semesters | Finalist in TAMiNG iCTFF8 Competition at UiTM Jasin | Silver Award for Final Year Project | Gold Award for University in Action Symposium.

• Best Olympian (Male) 2021 at Centre for Foundation Studies Gambang - gold medals in 100m, 200m and 4x100m relay| Best Young Athletes Mustang 2023| Half Colour Award for Athletes 2024 | Full Colour Award for Athletes 2025

• 4x100m Relay SUKIPT 2024 Bronze Medalist; 4x100m Relay VTF Grand Final 2026 Bronze Medalist.

• Participated in Google Cloud Net 2025, Cyber Skill Level Up: Mastering Cyber Defense, Modern Fullstack Hero Workshop, Web Security Workshop (XSS & CSRF), BeSMART Financial Literacy Program and A.M.A.L Talk at IIUM.

ADDITIONAL INFORMATION

Soft Skills: Communication, leadership, teamwork, flexibility, independence, problem solving and adaptability. Languages: Malay (Fluent), English (Intermediate), Arabic (Basic).
